

THE NEW COFFEE EXPERIENCE IN THE AIR
Powered by SkyBarista

Welcome to the Coffee Club on Board

With its newly SkyBarista coffee trolleys, SkyTender is first to offer coffee specialties brewed with purest quality water, freshly prepared in front of the passenger.

SkyBarista offers authentic barista coffee quality and 50 shades of choice: several blends and hints from toasted hazelnut, to caramel or a subtle touch of dark chocolate. The coffee is made with perfection, designed to be served with love and truly enjoyed.

SkyBarista increases coffee take-rates onboard, generates additional ancillary revenues and creates opportunities for up-and cross-selling, as well as data transparency. Flight Attendants are proud to serve great coffee and SkyBarista optimizes crew handling and airline operations.

Our new Coffee Club On Board is a warm welcome for air travelers, who love great quality coffee and choice. The Coffee Club On Board, originated from the innovative experience of the SkyBarista specialty trolleys, being a significant enhancer of the onboard beverage experience for both the passenger and the crew.

SkyBarista trolleys are tested inflight, certified and ready to fly.
